

Environmental policy statement

Vipond Fire Protection is committed to leading the industry in minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- minimise waste by evaluating operations and ensuring they are as efficient as possible.
- minimise toxic emissions through the selection and use of its fleet and the source of its power requirements
- compliance with F Gas regulations under EC reg No: 517/2014
- actively promote recycling both internally and amongst its customers and suppliers.
- source and promote a product range to minimise the environmental impact of both production and distribution
- meet or exceed all the environmental legislation that relates to the Company.
- implement a training programme for its staff to raise awareness of environmental issues
- ensure staff are committed to improving the Company's performance
- address environmental concerns of customers
- encourage the adoption of similar principles by its suppliers
- a structured approach to identify individual departmental areas of environmental responsibility
- manage processes affecting the impact of its activities on the environment.
